

## 32,209 TOURISTS IN BANFF LAST SEASON

Their Expenditure Totalled \$2,500,000... Report of Superintendent of Parks and Military Camp Will be Held as Usual at Calgary Commencing June 23, But of Tourist Bureau Naval Resolution.

The mounted militia three in Alberta will go into camp this year. There was some alarm last fall when the camp in Alberta was held in 1938, as the training camps in other parts of the Dominion. Yesterday afternoon, Col. St. John, a letter from Col. St. John at Winnipeg in answer to a telegram of enquiry announcing that the camp would be held in Calgary this year as usual beginning June 23.

According to the annual statement of Howard Douglas, superintendent of the Rocky Mountain Park, of Canada, the tourists visiting Banff last year numbered 32,209. He figures out that during the year 32,209 tourists visited Banff and each tourist averaged an expenditure of \$77. He believes that the tourists are very low. Of the visitors 7,500 came from the United States and the rest from Canada and others from every part of the world. Travel to the park has been increasing steadily for many years. In 1938 the total number of visitors was 2,900. The number of visitors increased last year. Last year was not regarded as a good year, even though the number was larger than any previous year, because of the Centenary of Queen and many exhibitions in Europe, which attracted people to that continent.

The retail clerks held another meeting last evening to discuss the summer half holiday question. When the decision of the board of trade was made and the clerks did not agree with the clause which stated that clerks should work towards providing sufficient means to carry the law. The chairman remarked that the retailers were giving them something which they had to go to the courts to get. The clerks organized but took no further definite steps.

The Calgary Board of Trade decided yesterday to take no rash action in recommending the summer half holiday to the National Policy.

The question arose at the regular monthly meeting out of a resolution from the Vancouver board of trade recommending that Canada should provide a half holiday for the British fleet. This was sent to the Calgary board of trade. Dr. Laflamme said that there was an unanimous feeling that some action should be taken. It was possible that the members were not possessed of all the facts and the Dominion members of Parliament. He moved that the secretary prepare a resolution based on the recommendation of the Dominion board of trade. Mr. Giesbrecht seconded the motion which was carried unanimously.

## SCHOOL BOARD REPORT.

The annual report of the Public School Board of Edmonton was read and will be in the hands of the public by next week.

Charles Clarke informed a Bulletin representative this morning that at the regular meeting of the board on Thursday next he intends to bring up the question of what should constitute a good report of the transactions of the school board. He was of the opinion that too many reports are made, and the lack of good work that the public can get and are being made at which expenditures are being made by the board.

He referred to the report of the Winnipeg committee, which shows a decreasing rate of expenditure per capita each year, and in Edmonton the rate is increasing every year. He concludes that the public should know the facts at which expenditures are being made by the board.
